# Divorce: Putting the Children First

This course has been developed for divorcing parents of children. Approximately 60-75% of all divorces involve children. The family changes that follow the divorce are painful for children of all ages.

The most important aspect of a divorce needs to be the children's needs, thoughts, feelings, and beliefs.

Through completing this course, Divorce: Putting the Children First, parents will gain a better understanding of how their own thoughts, feelings, and behaviors regarding the divorce are passed onto the children. Parents will also learn techniques to keep children out of the middle and to put the child(ren) first.

A course designed to give parents a better understanding of the following:

- How children are affected by divorce.
- Common behaviors of children after divorce.
- Effective communication techniques.
- Effective listening skills.
- Effective parenting techniques.
- Activities for children.
- Understanding of challenges and solutions for single parent households.

A four-hour parent education divorce workshop required by all Family Law Courts.

All participants will be given a certificate of completion.

The fee for the four-hour workshop is \$35.00, which includes the course and the course materials.

Please contact FamilyTime at (281) 446-2615 for more information about **DIVORCE: Putting the Children First**.

Individual & group counseling and other parenting courses are also available at FamilyTime. Please call for more information.
